Reviews of the **Honor Bound** *by* Sandra Brown

Usanner

This is another great book by a author that just doesn't quit for suspense and mystery. Her books never fail to keep you reading, reading and reading some more!

I don't know how she keeps them coming like this, but I am so glad she does.

Cenneel

As always, Sandra Brown keeps you on the edge of your seat! I so enjoy her writing, it is

entertaining and very well written. She is definitely one of my favorite writers

Rocksmith

This was a good read! Very different from most of her books but heartwarming as well as mysterious and romantic.

Laizel

Good read. A love story with a twist.

Warianys

A masterpiece as always from Sandra Brown. She always brings to light human injustices in her novels and Lucas Greywolf's was no exception.

Chankane

Sandra brown's writing is excellent with good storyline and characters. Have enjoyed all of her books that I have read thus far.

Mayno

I have NEVER cried about a book....but this one. When Tony was at the hospital and she let him HAVE IT about not showing emotion! But then he started crying. ...I CRIED! I felt it all. Now this is the kind of writing I love! Thank you Sandra.

A well written description of the common struggles of many people today. More and more of us today have more than one culture in our blood and while it is a positive step for the world many struggle with the prejudices and their identities. Enjoyed this book
